**Subject: Request to add Soft Skills training programs to the curriculum.**

Dear Sir/Madam,

I am writing to you as a representative of Santhigiri College of Computer Sciences, Vazhithala. (An affiliated college of yours), with a request to add soft skills training programs to the curriculum. As you may be aware, the world is evolving at a rapid pace, and so is the job market. In this fast-paced world, employers are looking for not only technical skills but also soft skills in potential employees.

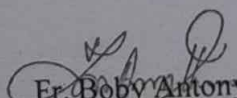

In today's world, it is more important than ever to be able to communicate effectively, work well in a team, and demonstrate leadership skills, amongst others. These are the skills that will set a candidate apart and help them be successful in their careers.

As a college, we take pride in preparing our students for their future careers, and we believe that adding soft skills training programs to the curriculum would greatly benefit our students. We request your support in this endeavor and request that you consider adding these programs to the curriculum.

We believe that with your support, we can provide our students with a more well-rounded education that will better prepare them for their future careers.

Thank you for your attention to this matter. We look forward to your response and hope for a positive outcome.

Sincerely,

  
Er. Bobby Antony CMI

**Subject: Various benefits for differently abled students in university examinations.**

Dear Sir/Madam,

I am writing to request various benefits for differently abled students in university examinations. As you are aware, students with disabilities face numerous challenges in their academic pursuits, and it is essential that the university provides them with the necessary support to ensure that they can perform to the best of their abilities.

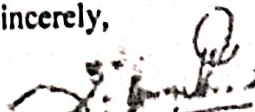

Firstly, I would like to request extended time for differently abled students during university examinations. Many of these students require additional time to complete their exams due to their disabilities, and it is crucial that the university accommodates this need. This will enable them to complete their exams without feeling rushed or stressed, which can impact their performance negatively.

Secondly, I would like to request the provision of assistive technology for differently abled students during university examinations. Many of these students require specialized equipment to complete their exams, such as screen readers, Braille displays, and speech recognition software. It is crucial that the university provides them with the necessary technology to ensure that they can complete their exams effectively.

In conclusion, I urge the university to consider these requests and provide the necessary support for differently abled students during university examinations. By doing so, we can ensure that they are given a fair opportunity to excel academically and achieve their full potential.

Thank you for your attention to this matter.

Sincerely,

  
FR. BOBBY ANTON, GM
